Product Description

160W 17.46V Folding Solar Panel Camping High Power Solar Panels CE For RV

This 160W folding solar panel is designed for camping and RV use. Operating at 17.46V, it delivers high power output with high-efficiency monocrystalline cells. Certified by CE, it ensures reliable performance and safety. The foldable design offers convenience in transportation and storage, making it an excellent choice for off-grid adventures and sustainable energy solutions.

Product Features:

1) Portability

Compared with traditional solar panels, the biggest advantage of foldable solar panels is their foldable design, which can be easily carried and is very suitable for outdoor travel, camping, wild adventures and other activities.

2) Waterproof & Dustproof

Front material is tempered glass, which is easy to clean and not easy to get dirty. Smooth surface will prevent dust from outside. This model product is equipped with IP 65-rated junction box, which has high level of protection. That can be used in outdoors and various environment.

3) Environmental protection and energy saving

The power generation method of folding solar panels is very environmentally friendly and energy-saving, and will not pollute the environment. At the same time, it uses solar energy to generate electricity for free, which is very economical and practical.
