## Product Description

# 410 Watt IP68 Bifacial Solar Panels Crystalline With Black Frame Monocrystalline HJT

The 410 Watt Bifacial Solar Panels feature IP68-rated protection and advanced HJT monocrystalline technology, ensuring high efficiency and durability. With a sleek black frame, these panels capture sunlight from both sides, significantly boosting energy output. Ideal for residential, commercial, and industrial applications, they maximize power generation by utilizing reflected light. Their robust construction guarantees long-term performance and reliability. Designed for optimal energy efficiency, these panels provide an excellent solution for reducing electricity costs and supporting sustainable energy initiatives.

### Product Features:

#### 1)Higher efficiency

With the ability of capturing sunlight from both sides,our product of bifacial solar panel can provide up to 21,96% more efficient compared with the common solar panel.

#### 2)Easy to install and use

The pre-drilled holes on the back of the panel make it quick to mount on the roof or other situation.

#### 3)Advanced Technology

As one of the most efficient solar technologies in the industry,HJT technology can make products less affected by changes in temperature. Bifacial products pass more sunlight up to 95%.
