# 150W solar blanket for camping with bracket

The 150W solar blanket for camping with a bracket is a powerful and portable energy solution for outdoor enthusiasts. It features high-efficiency solar panels that generate up to 150 watts, making it suitable for charging multiple devices like smartphones, tablets, cameras, and portable batteries. The included adjustable bracket ensures optimal sun exposure for maximum energy output. Lightweight, foldable, and water-resistant, it's designed to withstand various weather conditions. With built-in USB ports and a compact design, it's easy to transport and set up, providing reliable power for camping trips. This eco-friendly solar blanket is perfect for off-grid adventures and emergency power needs.

### **Product Features:**

- 1. Portable Design: The solar panel is often foldable or designed to be compact, making it easy to transport. The accompanying bag usually has handles or straps for carrying.
- 2. High Efficiency: The panel uses high-efficiency monocrystalline or polycrystalline solar cells to maximize energy conversion from sunlight.
- 3. **Durability**: Made with robust materials to withstand outdoor conditions, including water-resistant or weatherproof fabric for the bag and rugged construction for the panel.
- 4. Compatibility: Designed to be compatible with various devices and power stations, often including adapters and cables to connect to different input ports
- 5. Smart Charging Technology: Features such as MPPT (Maximum Power Point Tracking) controllers or smart charging algorithms to optimize power output and efficiency.
