30W mono solar panel for camping

The 30W monocrystalline solar panel is an excellent power solution for camping and outdoor use. Designed with high-efficiency mono cells, it provides reliable energy output to charge small devices, power banks, lights, and other camping gear. Compact, lightweight, and easy to carry, this panel is perfect for portable setups. Its durable aluminum frame and tempered glass surface offer strong protection against harsh weather conditions. Easy to set up and compatible with most 12V battery systems, it ensures you stay powered during your adventures. Ideal for campers, hikers, and off-grid enthusiasts seeking clean and renewable energy.

Product Features:

1)Portability

Small dimensions make it easy to carry. Its small dimensions can occupy less of your activity area. When you are camping, picnicking, or fishing outdoors, this portable solar panel can help maintain your power needs. By the way, its lightweight feature can help you carry it better.

2)Long service life

The service life of monocrystalline silicon solar cells is relatively long, generally reaching around 20 years, with the highest reaching 25 years.

3)Easy installation

Pre-drilled holes on the back of the panel for fast mounting and securing.

4)Angle adjustable

This product can be equipped with an adjustable mounting bracket, which can rotate 360 degree angle. You can change the angle of solar panels and sunlight to maximize the efficiency.
