Product Description

Folding solar panel for RV camping solar panel blanket

This portable, foldable solar blanket is a must-have for RV camping. Its lightweight, waterproof design unfolds for maximum sun exposure and folds compactly for easy storage. Featuring high-efficiency monocrystalline cells, it reliably charges batteries for your lights, fans, and devices. Simply set it in the sun, connect to your power station or battery via the included controller, and enjoy renewable power anywhere.

Product Features:

- 1.Portable Design:** The solar panel is often foldable or designed to be compact, making it easy to transport. The accompanying bag usually has handles or straps for carrying.
- 2.High Efficiency:** The panel uses high-efficiency monocrystalline or polycrystalline solar cells to maximize energy conversion from sunlight.
- 3.Durability:** Made with robust materials to withstand outdoor conditions, including water-resistant or weatherproof fabric for the bag and rugged construction for the panel.
- 4.Compatibility:** Designed to be compatible with various devices and power stations, often including adapters and cables to connect to different input ports.
- 5.Smart Charging Technology:** Features such as MPPT (Maximum Power Point Tracking) controllers or smart charging algorithms to optimize power output and efficiency.
